

Strong Merchandise Trade Growth in 2012:

Exports outperform imports leading to visible trade surplus.

Total Merchandise Trade

The total value of Nigeria's external *merchandise* trade for the fourth quarter 2012, stood at N7, 185.8billion, showing a slight increase of N6.4billion or 0.1% over the previous quarter. At the end of 2012, the Nigeria's external trade was N 28,071.2 billion. This was 4.3% lower than the corresponding figure of N 29,333.0 billion recorded in 2011. This development arose from a sharp decrease in the value of imports from N 9,892.6 billion in 2011 to N 5,624.9 billion in 2012 (a decrease of 43.1%). However there was an increase of 15.5% in the value of exports from N19,440.4 billion in 2011 to N 22,446.3 billion in 2012. The increase in the value of exports contributed immensely to the visible *trade Balance* of N16,821.4 billion recorded in 2012. This was a contrast to the visible trade balance of N 9,547.7 billion recorded in 2011. The *crude oil* component of total

trade increased by N 1,596.0billion or 11% over the level recorded in 2011 (Table1).

Imports Classified by Standard International Trade Classification and Country of Origin.

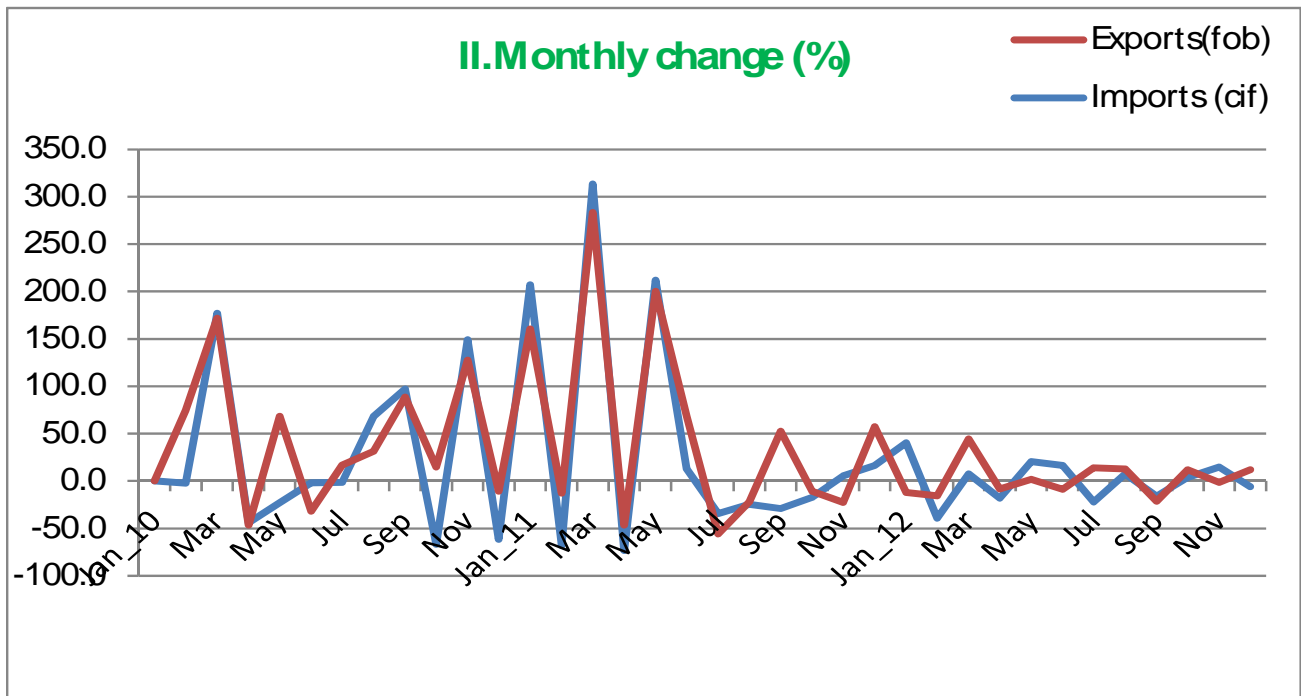

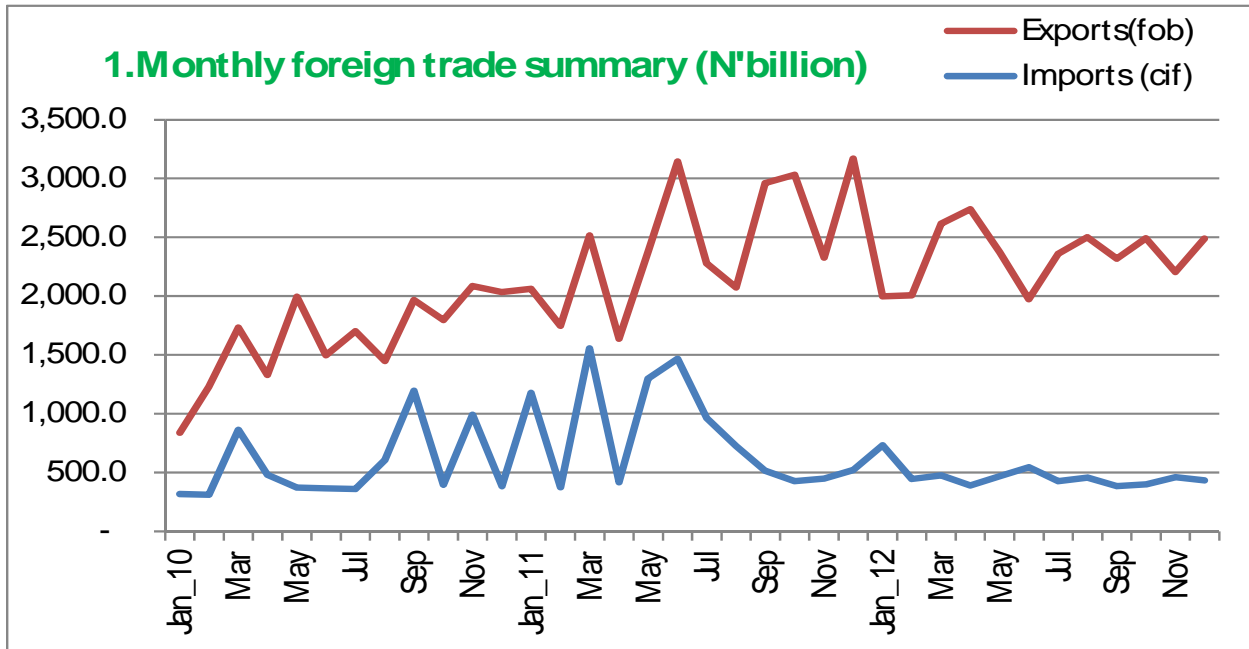

The total **imports** of Nigeria was valued at N1,292.8billion in quarter 4, 2012 indicating a rise of N21.6billion or 1.7% when compared with the value of the third quarter of the same year. The value of imports totaled N5,624.9billion at the end of 2012 as against N9,892.6billion in 2011, a decrease of N 4,267.8 billion or 43.1%.The structure of import trade according to SITC was still dominated by the imports of Machinery and transport equipments, Manufactured goods and Commodities n.e.s which accounted for 23.5%,12.4% and 34.0% respectively. However, commodities which contributed noticeably to the fall in the value of import trade in 2012 were as follows:

Beverages & Tobacco, Crude inedible materials, Mineral fuel and oils,fats&Waxes with N79.0billion or 1.4%, N61.7billion or 1.1%, N49.4billion or 0.9%, N10.9 billion or 0.2% respectively.(Table6). Further analysis of Nigeria's imports according to sections showed that Boilers ,Machinery and Appliances still accounted for the largest share of Nigeria's imports with N1,283.3 or 22.8%.However, other major imports of Nigeria during the period under review include Vehicles, aircraft and part, Vegetable products, Base metals and associated articles and products of chemical and Allied industries with N1,111.4billion or 19.8%, N577.2billion or 10.3%, N520.3Billion or 9.2% and N450.2billion or 8.0% respectively(Table2).

At the end of 2012, Nigeria's imports according to Broad economic classification revealed that goods not elsewhere specified accounted for N1,929.0billion or 34.3%, followed by Industrial supplies with N1,321.8billion or 23.5% and capital goods and parts with N957.9 billion or 17.0% (Table7). Direction of import trade by Economic region showed that Nigeria's major imports came from Asian countries which accounted for N2, 319.9billion or 41.2% of the total imports. Other major imports of Nigeria were from Europe and America with N1,490.4billion or 26.5% and N1,421.9billion or 25.3%.Within the continent of Africa, Nigeria imported goods valued at N245.6billion or 4.4% out of which ECOWAS accounted for N33.8billion or 13.8%.(Table4)

Exports Classified by Standard International Trade Classification and Country of Destination

Nigeria's total export trade amounted to N5,892.9 billion in the quarter under review. This was less than N5,908.2 billion recorded in the preceding quarter. On annual basis, the total exports of Nigeria stood at N 22,446.3 billion at the end of 2012, representing a rise of N3, 006.0 billion or 15.5% over the level in 2011. The structure of Nigeria's export is still determined by crude oil export. The contribution of crude oil to the value of total domestic export trade amounted to N15,531.9 billion or 69.2% in 2012. Summary of Nigeria's export by section revealed that the highest export product of Nigeria in 2012 was mineral products which accounted for N18,868.0 or 84.1%. Other products that contributed immensely to Nigeria's export includes Plastic, rubber and articles, Prepared foodstuffs, beverages, spirits and vinegar, tobacco whose values stood at N1,599.9 billion or 7.1% and N764.2 billion or 3.0% of the total exports of Nigeria during the period under review. (Table 3). Details of Nigeria's exports to various continents of the world showed that European countries are the highest consumer of Nigeria's export with N8,227.1 billion or 36.7%. This was followed closely by America with N7, 196.1 billion or 32.1% and Asia with N4, 347.4 billion or 19.4%. Within the continent of Africa, Nigeria exported products valued at N2,118.68 billion or 9.4% of its total exports trade. However, Nigeria exported products valued at N869.6 billion to the region of ECOWAS out of its total export trade to Africa (Table 5).

Year on Year Total Trade summary(N'billion)

Year on Year total trade summary (N'billion)

Methodology

The National Bureau of Statistics publishes this Trade statistics report quarterly. Trade statistics compilation by NBS is largely from secondary data sources.

Data Sources:

The Nigerian Customs through the Nigeria Integrated Customs Information System, Cobalt International Plc (on export commodities), Nigerian National Petroleum Corporation and various oil companies in the upstream and downstream sectors of the oil industry, Nigerian Ports, Petroleum Products Price Regulatory Agency, Central Bank of Nigeria.

Validation & Quality Assurance:

After collecting data from the above sources, it is verified for outliers, Data validation is undertaken through a sample of the various Nigerian Customs outposts in Nigeria. Equally, regular visits are paid to the various outposts of Cobalt International for export validation using the extensive NBs field network. Weight harmonization is carried out through the various entry posts of imports and exports in Nigeria.

Processing/Analysis:

Data processing is done using the Global Eurotrace software and the processed data is banked in the trade database. We use the Standard International Trade Classification (SITC) to categorize trade items.
