Trade Intensity in Q4 2019

Export Intensity Index with Five Major Trading Partners

The export intensities in Q4, 2019 showed Nigeria's export trade with India was intense in October, November and December with the index recording 4.3, 4.3 and 3.5 respectively. There was also intense trade between Nigeria and its major trading partners (Spain, France, Netherlands and South Africa) in all months of the fourth quarter: Spain recorded 4.9, 5.0 and 3.2 in October, November and December respectively, while France recorded 1.8, 2.1 and 1.8; the Netherlands 2.2, 1.2 and 1.7 and South Africa 6.0, 13.6 and 11.6 in those months respectively.

Import Intensity Index with five Major Trading Partners

In Q4 2019, India ranked highest in Nigeria's import trade. It recorded an index of 17.2 in October, 4.4 in November and 1.8 in December. The high index in October can be attributed to the importation of electrodiagnostic apparatus and other machinery from India that month. China, which had always been Nigeria's leading partner in terms of imports, recorded 1.0, 1.5 and 0.6 in the months of October, November and December 2019. A similar trade pattern was recorded for the Netherlands (1.7, 2.9 and 0.3) and Belgium (2.8, 1.9 and 0.3). However, trade with the United States was not as intense during those months, as shown by the recorded import intensities of 0.7, 0.8 and 0.6 respectively.

METHODOLOGY

The National Bureau of Statistics publishes this Trade statistics report on quarterly basis. Trade statistics compilation by NBS is largely from secondary data sources.

Data Sources:

The data sources for the compilations include; The Nigerian Customs Service (NCS) through the NigeriaIntegrated Customs Information System (NICIS), Nigerian National Petroleum Corporation (NNPC) and Various oil companies in the upstream and downstream sectors of the oil industry, Nigerian Ports, Petroleum Products Pricing and Regulatory Agency (PPPRA), Nigeria Liquefied Natural Gas Ltd (NLNG), Central Bank of Nigeria (CBN), Cobalt International Services Ltd, Carmine Assayer Ltd Inspection Services, Neroli Technology, Nigerian Export Processing Zone Agency (NEPZA), Oil and Gas Free Zone Agency (OGFZA) NigerianElectricity Regulatory Commission (NERC), Federal Airports Authority of Nigeria (FAAN), Nigeria Civil Aviation Authority (NCAA) and Nigerian Ports Authority (NPA).

Validation & Quality Assurance:

After collecting data from the above stated sources, they're screened and verified for outliers. Data validation is undertaken through a sample of the various Nigerian Customs Service outposts in Nigeria. Weight harmonization is also carried out through the various entry ports in Nigeria.

Processing/Analysis:

Data processing is done using the Global Eurotrace software and the processed data is banked in the trade database. Standard International Trade Classification (SITC) is used to classify and categorize trade items.
