Methodology

States IGR data is computed by the National Bureau of Statistics and the Joint Tax Board from official records and submissions by the 36 State Boards of Internal Revenue. These submissions are then validated and authenticated by the Joint Tax Board which is chaired by the Federal Inland Revenue Service and has the National Bureau of Statistics and the 36 State Boards of Internal Revenue as members.

MDAs Revenues

These relate to revenues generated administratively by State MDAs during the course of providing various services to residents in the State

Direct Assessment

Direct Assessment may relate to a form of personal income tax used to assess tax for self employed individuals. With the self assessed tax, a new tax payer can assess him/herself, and pay the calculated amount. Direct assessment may also relate to those imposed on businesses especially (informal) by the state authorities based on the size of their activities.

Pay As You Earn (PAYE)

This is a form of personal income tax that refers to tax deducted directly from the wages and salaries of employees operating in the formal sector. All employers in Nigeria are responsible for deducting Pay As You Earn (PAYE) taxes from their employees' earnings.

Road Taxes

Road taxes are daily levies paid by commercial transporters operating within the states

Other Taxes

These include various taxes such as levies on market traders, land registration and other land related fees, development levies on individuals, pool betting/lottery/gaming fees, stamp duties on individuals etc.
