AVERAGE			17.08	1.7

The background of the page is a photograph of a market stall. Several blackboards with white chalk writing are visible. One sign on the left says 'Erculina' and has some drawings. Another sign in the middle has '100' written on it. A third sign on the right has '199' written on it. The overall scene is a busy market environment.

METHODOLOGY

Field work is done solely by over 700 NBS Staff in all States of the federation supported by supervisors who are monitored by internal and external observers.

Prices are collected across all the 774 local governments across all States and the FCT from over 10,000 respondents and locations and reflect actual prices households state they actually bought those items.

The average of all these prices is then reported for each state and the average for the country is the average for the state.

NBS audit team subsequently conducts randomly selected verification of prices recorded.
