Methodology

The National Bureau of Statistics publishes this Trade Statistics report on a quarterly basis. Trade Statistics compilation by NBS is largely from secondary data sources.

Data Sources:

The data sources for the compilations include; The Nigerian Customs Service (NCS) through the Nigeria Integrated Customs Information System (NICIS), Nigerian National Petroleum Company (NNPCL), Various companies in the upstream and downstream sectors of the oil industry, Nigerian Midstream and Downstream Petroleum Regulatory Authority (NMDPRA), Nigeria Liquefied Natural Gas Ltd (NLNG), Central Bank of Nigeria (CBN), Angila International Limited, Neroli Technologies Limited, Gojopal Nigeria Limited, Nigerian Export Processing Zone Agency (NEPZA), Oil and Gas Free Zone Agency (OGFZA), Nigerian Electricity Regulatory Commission (NERC), Federal Airports Authority of Nigeria (FAAN), Nigeria Civil Aviation Authority (NCAA) and Nigerian Ports Authority (NPA).

Validation & Quality Assurance:

Once data is collected from the above-stated sources, it is screened and verified for outliers. Data validation is undertaken through a sample of the various Nigerian Customs Service outposts in Nigeria. Weight harmonization is also carried out through the various entry ports in Nigeria.

Processing/Analysis:

Data processing is done using the Global Eurotrace software and the processed data is banked in the trade database. Standard International Trade Classification (SITC) is used to classify and categorize trade items.

Definitions:

- **Domestic exports** – These are goods grown, extracted, or manufactured in Nigeria and are sold in another country.
- **Re-export** – These are goods of foreign origin that entered Nigeria to be consumed but are subsequently sold to another country without any substantial transformation. In other words, they are exported in the same condition as imported.
- **Raw material goods** – This refers to products of agriculture, forestry, fishing, and any other mineral that are in their natural form or which have undergone the minimal transformation required to prepare them for international marketing.
- **Agricultural goods** – These are goods that come from the planting of crops and/or the rearing of animals.
- **Solid minerals** – These are elements found in the earth; and naturally organic substances that are solid like precious stones, kaolin etc.
- **Energy goods** – This only refers to fuel woods in logs, for example, hardwood, charcoal, coniferous wood in chips or particles etc.
- **Manufactured goods** – These are tangible goods created from the conversion of raw materials into consumable or useful products.
- **Other Petroleum products** – This consists of mineral fuels like natural gas, oil, bituminous coal etc.
- **Crude oil** – These are naturally occurring, unrefined petroleum products composed of hydrocarbon deposits and other organic materials.
