ACKNOWLEDGEMENT

We are indebted to the Chief Servant of Niger State, Dr. Muazu Babangida Aliyu, CON whose support and encouragement made this publication possible. We also appreciate and acknowledge his effort in facilitating the availability of conducive environment and legal framework for Statistical activities to thrive in Niger State.

The roles played by the National Bureau of Statistics (NBS), World Bank, UNDP, UNICEF and other Development Partners towards the transformation of the State's Statistical System and indeed the sustainable development of Niger State are also highly appreciated by the Government and people of Niger State.

The cooperation of the MDAs, LGAs and other data providers in the State for supplying the data that facilitated the production of this publication is also well acknowledged and appreciated. Similarly, we commend the staff of Niger State Bureau of Statistics and those of Niger State Planning Commission for their untiring efforts towards ensuring the availability of relevant statistical data useful for evidence-based Policy formulation and Planning in Niger State.

FOREWORD

This is the 2012 edition of "Agricultural Statistics" about Niger State published by Niger State Bureau of Statistics (NSBS). The publication is one of the series of Statistical publication produced by the state's Apex Statistical Agency (NSBS) in its effort to make available relevant data that will be useful for policy formulation, Planning, project/ programme Monitoring and evaluation and also facilitate Research studies.

The publication is aimed at making available to the general public some basic facts about Agriculture in Niger State. The data contained in the publication were either extracted from the mass of available data of NSBS, obtained from administrative records of Ministry of Agriculture, Ministry of Environment & Forest Resources and Niger State Agricultural Development Project (NSADP) or extracted from publication of National Bureau of Statistics-, (NBS).

The Government and people of Niger State are particularly grateful for the support of the NBS, World Bank, UNDP and other Development Partner in transforming the Apex Statistical Agency of the state (Niger State Bureau of Statistics) to a modern day Statistical outfit capable of meeting modern day statistical challenges.

We welcome constructive criticism and suggestions that will lead to the enhancement of subsequent editions of this publication.

***Hon. Commissioner,
Ministry of Budget & Economic Planning and
Deputy Chairman, Niger State Planning Commission***

BRIEF NOTE ON NIGER STATE

Niger State was created on 3rd February, 1976 from the defunct North-Western State during the regime of General Murtala Ramat Mohammed; however, the State actually began functioning on April 1st of that year. There were originally Nine Local Government areas (LGAs), namely: Chanchaga, Rafi, Bangi, Gbako, Etswan, Suleja, Mariga, Magama and Lavun. Agaie and Lapai LGAs were later created out of Etswan Local Government Area.

Between 1979 and 1983 when Malam Muhammadu Awwal Ibrahim was Executive Governor of the State, eighteen LGAs were managed by the administration, namely Kuta, Paikoro, Chanchaga, Rafi, Gbako, Katcha, Lemu, Lapai, Agaie, Suleja, Mariga, Bangi, Magama, Auna, Lavun, Mokwa, and Jima-Doko. But when the military came into power in 1984, it returned to the original L.G.A structure. Chanchaga was however divided into two:-Minna Municipal Council, with headquarters at Minna and Shiroro LGA with headquarters at Kuta.

The LGAs in Niger State became Nineteen (19) in 1991 when President Ibrahim Babangida created Nine (9) States and additional LGAs in Nigeria. However, by 1996 when late General Sani Abacha created six (6) additional States and 182 LGAs, in the entire country, Niger State got additional six (6) LGAs, namely, Katcha, Munya, Mashegu, Edati, Tafa and Mariga, bringing the total to 25 LGAs.

In the year 2002, the Civilian Administration of Engineer Abdulkadir A. Kure responded to the clarion call of the people for the creation of additional Local Government Areas. To this end, additional 17 new Local Government Areas were created out of the existing ones; bringing the total number of Local Government Areas to 42. The new LGAs were however dissolved and converted to Area Development Councils because they were not gazetted by the National Assembly

as enshrined in the Constitution of the Federal Republic of Nigeria. Thus, the status-quo of 25 LGAs was maintained.

LOCATION: The State lies on latitude 8° to $11^{\circ}:30'$ North and Longitude $03^{\circ} 30'$ to $07^{\circ} 40'$ East. The State is bordered to the North by Zamfara State, West by Kebbi State, South by Kogi State, South West by Kwara State, North-East by Kaduna State and South East by FCT. The State also has an International Boundary with the Republic of Benin along Agwara and Borgu LGAs to the North West.

LAND MASS: As at 26th August 1991 (before the merger of Borgu and Agwara LGAs), the State covered a land area of 74,244 square Kilometres, which is about 8% of the total land area of Nigeria. With the merger, the land mass is now 76, 469.903 Square Kilometers (about 10% of the total land area of Nigeria) out of which about 85% is arable.

POPULATION: As at 1961, the population of Niger State was 1,194,508. The 1991 population figure indicates Niger State as provisionally containing 2,421,581 people. The 2006 Population and housing Census put the State's population at 3,950,249.

SOIL: The soil types in Niger State are two: Ku soil and Ya soil. The Ku soil has little erosion hazards, while the Ya soil has better water holding capacity.

OCCUPATION: The majority of the populace in the State (85%) are farmers while the remaining 15% are involved in other vocations such as white collar jobs, business, craft and arts.

RELIGION: The people of Niger State are predominantly Muslims and Christians with very few Traditional Religionists and Atheists.

TRIBES AND ETHNIC DIVISIONS: Although there are three major ethnic groups (Nupe, Gbagyi, and Hausa) in the State, other tribal groups include - Kadara, Koro, Baraba, Kakanda, GanaGana, Dibo, Kambari, Kamuku, Pangu, Dukkawa, Gwada and Ingwai. Niger State also has numerous settlers from other parts of the Country living peacefully and contributing their quota to the development of the State.

ECONOMY: The cherished asset of Niger State is its fertile land, however, the potentials are yet to be fully explored. The Climate and availability of wide variety of mineral and agricultural resources also attest to the economic potentials of the State. Every government that has come to power endeavoured to provide good infrastructure such as roads, electricity, water and communication facilities, to make way for interested investors. Some natural and mineral resources found in the State include: Talc, Gold, Ball clays, Silica, Sand, Marble, Copper, Iron, Felsper, Lead, Kaolin, Casserole, Columbite, Mica, Quartzite, and Limestone. The three Hydro Electric Power Stations in the Country (at Kainji, Jebba and Shiroro) are all situated in Niger State.

TOURISM: Niger State is one of the richest States in the country in terms of tourism. Some of the Tourist attractions are Zuma Rock, Gurara falls, Baro Empire Hill, Lord Lugard Colonial ruins at Zungeru, Nagwamatse Well and Kainji Lake National Park.

CLIMATE: Niger State experiences distinct dry and wet seasons with annual rain fall varying from 1,100mm in the northern parts to 1,600mm in the southern parts.

The maximum temperature (usually not more than 94^oc) is recorded between March and June, while the minimum is usually between December and January. The rainy seasons last for about 150 days in the northern parts to about 120 days in the southern parts of the State. Generally, the fertile soil and hydrology of the State permits the cultivation of most of Nigeria's staple crops and still allows sufficient opportunities for grazing, fresh water fishing and forestry development.

INDUSTRIALIZATION: The government of Niger State is aware that the true development of any nation depends on her level of industrialization. For this reason concerted efforts have been made to ensure rapid industrialization. Being largely an agrarian State, Niger State can support a large variety of Agro-allied industries. Also, the State's numerous mineral resources can serve as basis for the establishment of many other industries in the state.

In order to induce industrialists to invest heavily in tapping these resources, government has to put in place many incentives such as provision of well-serviced Industrial layouts, guaranteed accelerated processing of application for industrial plots and even financial assistance in form of loans and equity participation by the government in certain cases. Other facilities like telecommunication, postal services etc. are adequately provided in the State for effective business contacts. The State has International airport and is well linked to all parts of Nigeria by road and rail.

ELECTRICITY SUPPLY: Niger State is the acclaimed “Power House” of the nation because it houses the three Hydro-Electric Dams: Shiroro Hydro-Electric Dam; Kainji Hydro-Electric Dam; and Jebba Hydro-Electric Dam. It is a fact that all major towns in the State and indeed all Local Government headquarters except few are connected to the national grid.

NOTE:

- **FOOD POVERTY** is an aspect of Absolute Poverty Measure which considers only food expenditure for the affected Households.
- **RELATIVE POVERTY** is defined by reference to the living standards of the majority of people in a given society.
- **ABSOLUTE POVERTY** is defined in terms of the minimal requirements for food, clothing, healthcare and shelter.
- **DOLLAR PER-DAY MEASURE** of poverty refers to the proportion of people living on less than US\$1 per day poverty line based on World Bank's Purchasing Power Parity (PPP) index.

Table 35: MINERAL RESOURCES FOUND IN NIGER STATE

S/NO	MINERALS RESOURCES	LOCATION	LGA	USE
1	Gold	Minna, Kafin-Koro, Kontagora, Bida & New-Bussa	Chachaga, Paikoro, Bida & Borgu	Ornament decoration e.g. Jeweieries
2	Clay	Enagi, Rafi, Badeggi, Tatiko, Agwara, Borgu, Suleja & Mokwa.	Edati, Katcha, Agwara, Borgu, Suleja, & Mokwa.	Plumbing, Bricks, Tiles, Sanitary and Refectory wares
3	Silica & Sand	Suleja, Bida & Mokwa	Suleja, Bida & Mokwa	Glaxing material, white wall, Table ware, Tiles and Glass
4	Kynaites	South –West of Minna	Chanchaga	Bricks, Tank and Refectory material
5	Marble	Minna Hill & Kwakuti	Chanchaga & Paikoro	Road and Building Construction
6	Copper, Iron, Felspar & Lead	Spread All Over The State	All LGA	Various Refectory minerals or materials as deem fit
7	Kaolin	Agaie, Bida, Lemu, Mokwa & Kutigi	Agaie, Bida, Gbako, Mokwa & Lavun	Various Refectory minerals or materials as deem fit
8	Cassertrite	New-Bussa	Borgu	For tin coating and iron sheet
9	Columbite	New-Bussa	Borgu	For mirror coating and wrapping of soap
10	Tantalite	New-Bussa	Borgu	For dyeing of calico cloth and printing
11	Limestone	Lapai, Konkoso, Swashi & Mokwa	Agaie, Borgu, Lapai, Mokwa	For chalk making

Table 36: LOCATIONS CONDUCIVE FOR THE MANUFACTURING OF SOME SELECTED INDUSTRIAL PRODUCTS

S/NO	PRODUCT	MOST SUITABLE LOCAL GOV'T AREA FOR SITING OF INDUSTRIES
1	Ceramic Materials	Agaie, Bida, Borgu, Chanchaga, Gbako, Lavun, Mokwa, Paikoro, Rafi, Shiroro and Suleja
2	Sugar	Agaie, Bida, Borgu, Gbako, Lapai, Lavun, Mokwa and Wushishi
3	Particles Board	Bida, Gbako, Magama, Mariga and Rijau
4	Soya Beans products	Lapai, Mokwa and Suleja
5	Starch	Bida, Gbako, Lavun, Magama, Mariga, Mokwa, Rafi, Rijau, Shiroro and Wushishi
6	Cosmetics	Chanchaga, Lapai, Paikoro, Rafi and Suleja
7	Fruit Juice	All Local Government areas of the State
8	Processed Foods	All Local Government areas of the State

Table 37: HUMAN DEVELOPMENT INDEX {HDI} FOR STATES 2008/2009
