MAP OF AKWA IBOM STATE

FOREWORD

Manpower resource is not only the central coordinator but also a good simulator of all the other factors of socio-economic productions and services. A good human resource planning is not possible without a good manpower data. Therefore, the publication of 2013 Manpower Statistics is to provide a sturdy base for adequate personnel administration in the entire public service of Akwa Ibom State. The number of civil servants working in Akwa Ibom State as at January, 2013 was 13,772.

The publication covers five different areas of the State Public Service which include the Civil Service, Teaching Service, Judicial Service, House of Assembly Service and the Parastatal. This publication is branded *maiden* edition because of the many innovations on manpower data. It presents detail analysis on the entire workforce of the Public Service with particular reference to the Salary Grade Level, Local Government of Origin, Age and Length of Service. The degree of analysis is quite expository of some vital service indicators that are useful for manpower planning and development.
