AND RURAL DEVELOPMENT
COLLABORATIVE SURVEY ON NATIONAL
AGRICULTURE SAMPLE SURVEY (NASS),
2010/2011**

DRAFT REPORT

(Please note that this is a draft report. All comments should be directed to: ayobola@yahoo.com or omoabm2@yahoo.com or atteolu@yahoo.com)

May 2012

Table of Contents

1	Introduction	9
1.1	Background	9
1.2	Objective of the survey	9
1.3	Coverage and Scope	10
1.3.1	Coverage	10
1.3.2	Scope	10
1.4	Sample Design	10
1.4.1	National Integrated Survey of Household Sample Design (NISH)	10
1.4.2	National Integrated Survey of Establishments – Corporate Farm	11
1.5	Training	11
1.6	Field Work Arrangement	11
1.7	Quality Control and Retrieval of Record	12
1.7.1	Quality Control	12
1.7.2	Retrieval of Records	12
1.8	Data Processing/Analysis	12
1.9	Report Writing	13
1.10	Work Programme	13
2	Chapter Two	14
2.1	Private Farmers – Crop	14
2.1.1	Distribution of Crop Holders by State and Gender	14
2.1.2	Distribution of holders by age group and by state	16
2.1.3	Distribution of holding by size (hectare) of tenure type and by state, 2010	18
2.1.4	Distribution of funds committed by source and by state (million naira), 2010	18
2.1.5	Estimated Area ('000 hectare) and Production ('000 metric tons) of crops by state	21
2.2	Private Farmers – Livestock	25
2.2.1	Distribution of Livestock holders by State and Gender	25
2.2.2	Distribution of Livestock holders by State and Age Group	26
2.2.3	Distribution of Livestock Changes in Stock by type of Livestock reared	27
2.2.4	Distribution of holders by state and level of education	29
2.3	Private Farmers – Poultry Farming	31
2.3.1	Distribution of Holders by Poultry Type	31
2.3.2	Distribution of Poultry Holders by Gender	33
2.3.3	Distribution of Poultry Holders by Age Group	33
2.3.4	Stock of Poultry by Type	34
2.4	Private Farmers – Fishery	34
2.4.1	Distribution of Fish Farmers by Water Body	36
2.4.2	Distribution of Aquatic Fish Production by Type	36
2.4.3	Distribution of fish farmers by type of pond	38
2.5	Corporate Farms – Crop	39
2.5.1	Distribution of Legal Ownership of Crop Corporate Farms	39
2.5.2	Source of Funds	41
2.5.3	Area and Production	41
2.6	Corporate Farms – Livestock	42
2.6.1	Distribution of corporate livestock farm by State and form of Ownership	42

2.6.2	Distribution of Corporate Livestock farm by State and fund committed by Source	43
2.6.3	Distribution of Persons engaged in Corporate Livestock farming by State	44
2.6.4	Distribution of Corporate Livestock Production by State and Type	44
2.6.5	Corporate Farms Operating Expenses	45
2.7	Corporate Farms – Poultry.....	46
2.7.1	Poultry Count in Corporate Poultry Farming and Unit Price	46
2.7.2	Sale of Eggs by state in corporate poultry farming.....	46
2.8	Corporate Farms – Fishery.....	47
2.8.1	Distribution of Fish Farmers by Form of Ownership and By State	47
2.8.2	Distribution of Persons Engaged in Corporate Fish Farming.	49
2.8.3	Distribution of Corporate Fish Production by Type	51

1 INTRODUCTION

Agriculture is a major driver of economic growth in Nigeria. About 70% of the Nigerian rural population is involved in agricultural production. In 2010 agriculture contributed about 40% to the Gross Domestic Product (GDP). Also, the agriculture sector is a fulcrum to the national food security by providing the largest proportion of the national total food consumption requirement.

The National Agricultural Sample Survey (NASS) was conducted at the household level and establishment level (corporate farm), composing all agricultural activities; crop, livestock, poultry and fisheries. NASS is a collaborative survey between the National Bureau of Statistics and Federal Ministry of Agriculture and Rural Development (FMA&RD). The survey was funded by (FMA&RRD). The result is intended to monitor some of the government policies in agriculture (Special Programme for Food Security), assist researchers and academia.

1.1 Background

National Agricultural Sample Survey (NASS) is an annual survey conducted to fill in the gap of National Agricultural Sample Census (NASC), which is supposed to be conducted every ten years as recommended by Food and Agriculture Organization (FAO). The major stakeholders in agricultural data generation are National Bureau of Statistics (NBS) and Federal Ministry of Agriculture and Rural Development (FMA&RD). Collaborations enhance the credibility and integrity of official statistics and eliminates efforts duplication, issuance of conflicting figures by different agencies on the same subject matter and bringing about the realization of the benefits of cost savings, greater efficiency and synergy.

1.2 Objective of the survey

The key objectives of the survey include:

1. Collection of relevant statistics to facilitate the production of GDP.
2. Production of data to aid economic analysis on agriculture.
3. Collection of current socio-economic statistics in Nigeria to assist in policy formulation and aid the monitoring and evaluation of various government programmes on food security.

4. To make data available to researchers and academia

1.3 Coverage and Scope

1.3.1 Coverage

The survey covered all the 36 states of the Federation including the Federal Capital Territory (FCT), Abuja. The target populations canvassed were peasant farming households and corporate farms.

1.3.2 Scope

The scope covered all the sub-sectors of agriculture;

- Private crop farmers and corporate crop farming: area and production, gender, age group, funds, inputs, employment
- Private livestock farming and corporate livestock farming: livestock production, inputs, funds, employment
- Private poultry farming and corporate poultry farming: poultry count, inputs, funds, employment
- Private fisheries and corporate fisheries: fish farming and fish hunting production, inputs, funds, employment

1.4 Sample Design

The survey employed the National Bureau of Statistics' National Integrated Survey of Household (NISH) and National Integrated Survey of Establishment (NISE) sample designs.

1.4.1 National Integrated Survey of Household Sample Design (NISH)

The survey design was derived from the NBS 2007/12 NISH sample design. The 2007/12 NISH sample design is a 2-stage, replicated and rotated cluster sample design with Enumeration Areas (EAs) as first stage sampling units or Primary Sampling Units (PSUs), while Households constituted the second stage units (secondary sampling units). The households were the Ultimate Sampling Units for the multi-subject survey.

Generally, the NISH Master Sample in each state is made up of 200 EAs drawn into 20 replicates. A replicate consists of 10 EAs.

Private Farmers Survey

Total sample size of 35,520 Farming Households (FHHs) across all the states including FCT, were drawn from 2,220 EAs. In each state 960 FHHs were drawn from 60 EAs. The listings of households in the selected EAs were updated before being stratified into farming and non-farming households. The farming households were further stratified into Crop Farming Households (CFHHs), Livestock Farming Households (LFHHs), Poultry Farming Households (PFHHs) and Fishing Farming Households (FFHHs). In each EA, ratio 5:5:3:3 was imposed according to the intensity and preponderance of these farming activities. At the end, 16 HHs were expected to be covered in any ratio if the imposed one could not be satisfied. At each level of selection, households were systematically selected using different random starts. All households that qualified as farming households were served with relevant private farmers questionnaires.

1.4.2 National Integrated Survey of Establishments – Corporate Farm

400 corporate farms were selected across the country and activities i.e. crop, livestock, poultry and fishery, questionnaires were administered to the selected corporate farms.

1.5 Training

Training/briefing for the survey was implemented at two levels. The first level was the Training of Trainers (ToT) which included senior officers from NBS and FMA&RD. The training/briefing at the ToT level lasted for 3 days. The second level of training/briefing was implemented for the field personnel comprising Enumerators, Supervisors, State Officers and Zonal Controllers from NBS and FMA&RD. The second level training/briefing took place at the state offices of NBS which lasted for 4 days. Trainers at this level were the trainees at the first level and the training sessions included classroom teaching, demonstration, mock interviews, role playing, field practices and home exercises. The two levels of training were comprehensive and were designed to ensure collection of quality data.

1.6 Field Work Arrangement

The field work arrangement for the survey followed two approaches as contained in the NISH and NISE survey systems, meaning that NISH was household-based while NISE adopted the Establishments – corporate farms.

In each state, 3 teams were used comprising 3 supervisors and 12 enumerators. A team was made up of one supervisor and four enumerators. Each team covered 20 Enumeration Areas for a period of 17 days. A pair of Enumerators in a team covered 10 EAs. Each team moved in a roving manner. An enumerator covered the establishment component across the states.

1.7 Quality Control and Retrieval of Record

1.7.1 Quality Control

Quality Control measures were carried out during the survey, essentially to ensure quality of data. Three levels of supervision were adopted, involving supervisors of the team at the first level; FMA&RD and NBS staff, also State Officers and Zonal Controllers at the third level supervision.

1.7.2 Retrieval of Records

All the records of the private farmers were retrieved to NBS zonal headquarters for data entry while the corporate farms were retrieved to the NBS national headquarters

1.8 Data Processing/Analysis

The data processing/analysis involved six main stages, namely: development of data entry program; training of data processing staff; manual editing and coding; data entry; computer editing, verification; and conversion and table generation.

Integrated Microcomputer Processing Systems (IMPS) was one of the specialized statistical packages used to develop the data entry program. The Disk Operating System (DOS) version of the software can support multiple screens required to capture data from the various survey instruments.

The indicators on household surveys were obtained using the Statistical Package for Social Scientists (SPSS), while the indicators on establishment surveys were obtained using MS-ACCESS and MS-EXCEL.

Tabulation and analysis of the three survey systems were implemented by diligent and capable staff of the collaborating agencies.

1.9 Report Writing

A core team of senior officers from the subject matter divisions in the NBS and FMA&RD worked together to produce this report. This report will have a CD containing detailed tables that can be used for further analysis.

1.10 Work Programme

A joint time-line/work programme detailing the scheduling of the activities was developed. The time-line served as a project monitoring guide. It also helped in programme discipline at each level of activity and was flexible enough to accommodate delays in the retrieval of completed records in the field. The survey was well managed by the two collaborating agencies in order to ensure effective statistical delivery.

2 CHAPTER TWO

2.1 Private Farmers - Crop

These are farmers captured at the household level either in crop farming, livestock farming, poultry farming and fishery.

2.1.1 Distribution of Crop Holders by State and Gender

Table 2.1.1 reveals that there are eighteen million, one hundred and seventy six thousand, eighty two (18,176,082) crop holders. Distribution by gender was 15,629,709 (85.99 percent) for males and females were 2,546,371 (14.01 percent).

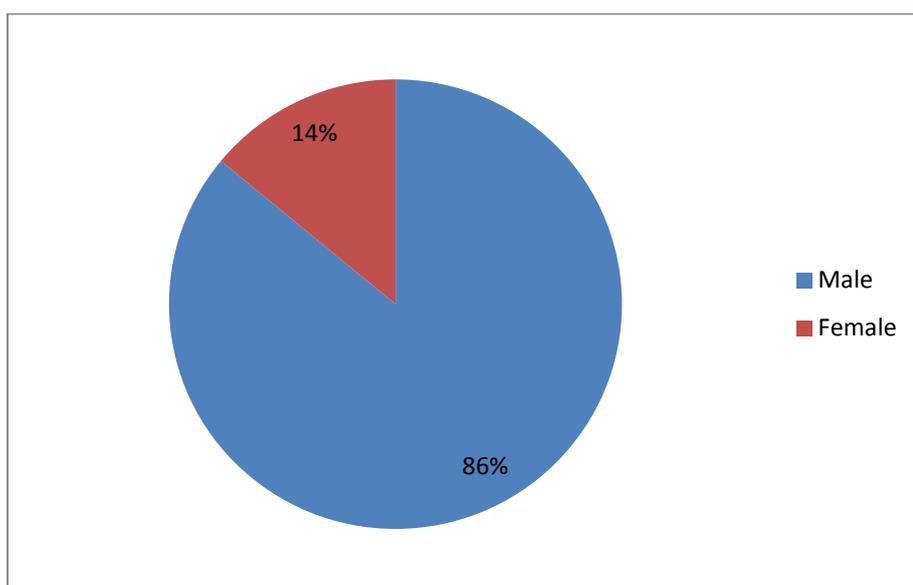

Out of the 15,629,709 male holders, Kano state had the highest number of holders 981,693 (6.28 percent), followed by Kaduna state 874,943 (5.60 percent) and Katsina state 738,456 (4.72 percent). Bayelsa state recorded the least number of male holders 106,423(0.68 percent) followed by Lagos state (0.81 percent)

Table 2.1.1: Distribution of holders by sex and by state - 2010

STATE	SEX OF HOLDER		
	Male	Female	Total
Abia	187,175	122,023	309,199
Adamawa	445,341	48,804	494,144

Figure 1 Distribution of Crop Holders by Gender (National)

2.1.2 Distribution of holders by age group and by state

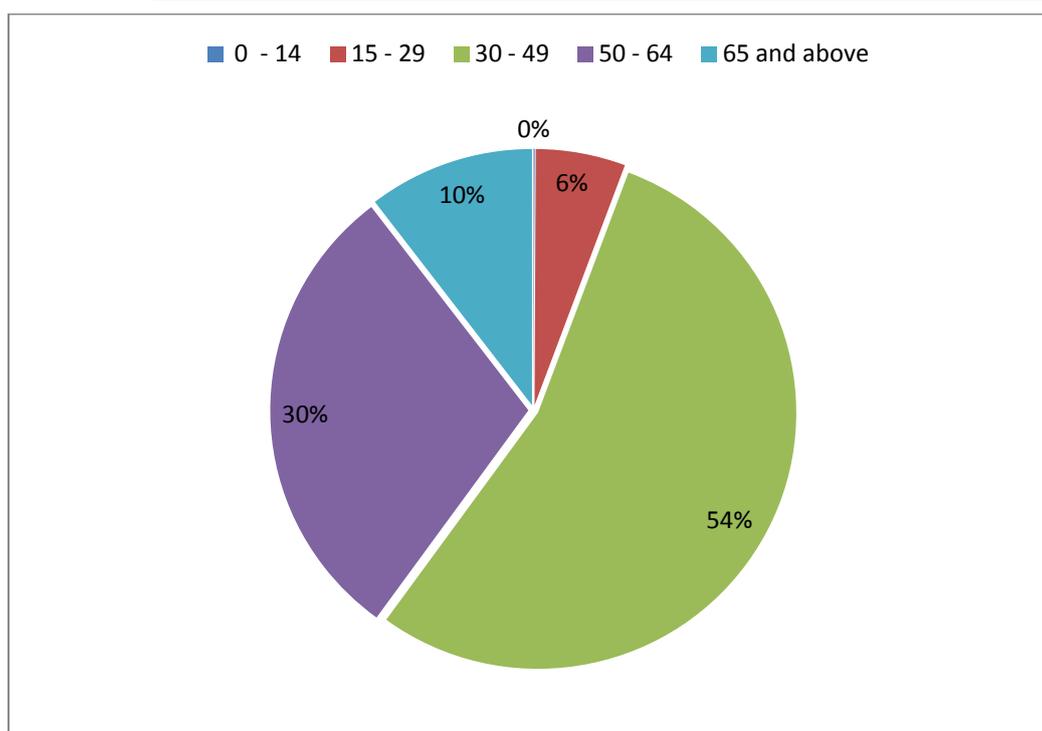

Among the age group's distribution in table 2.1.2, the age group (30 – 49) had the highest number of 9,873,229 (54.32 percent) followed by age group (50 – 64) which was 5,376,031 (29.58 percent) whereas age group (65 and above) recorded 1,892,314 (10.41 percent) and age group (15 – 29) accounted for 1,034,510 (5.69 percent)

Table: 2.1.2: Distribution of holders by age group and by state - 2010

STATE	15 - 29	30 - 49	50 - 64	65 and above	Total

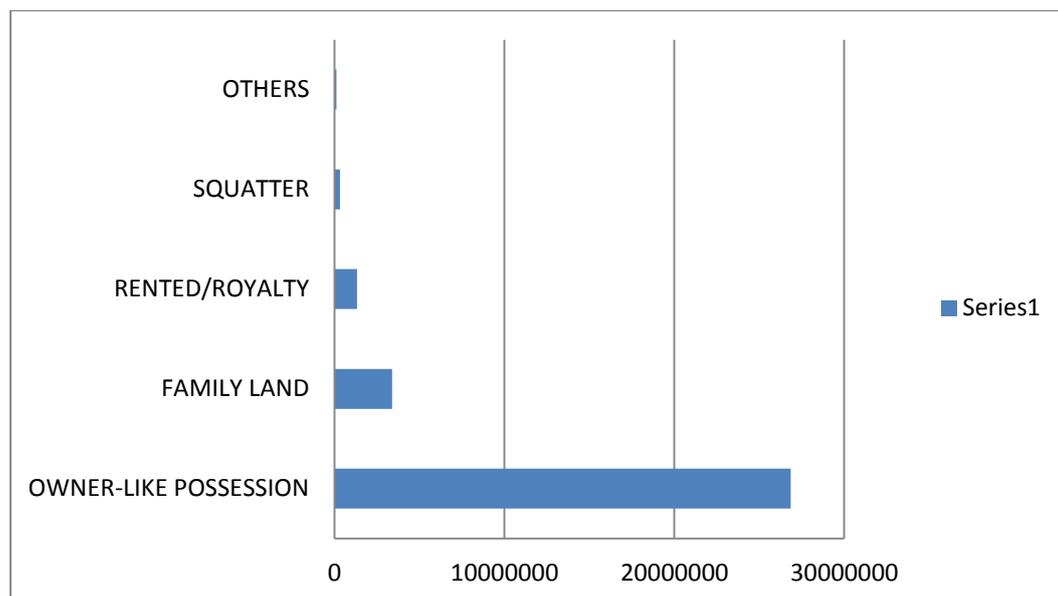

Figure 2 Distribution of Crop Holders by Age Group (National)

2.1.3 Distribution of holding by size (hectare) of tenure type and by state, 2010

The total land area cultivated was 32,031,825 hectares out of which owner-like possession accounted for 26,877,844 hectares (83.91 percent), followed by family land 3,393,599 hectares (10.59 percent), rented/royalty 1,326,716 hectares (4.14 percent), squatters 322,286 hectares (1.01 percent) and others 111,380 hectares (0.35 percent). See Table 1 in the appendix.

Figure 3 Tenure Type Size (Hectares) - National

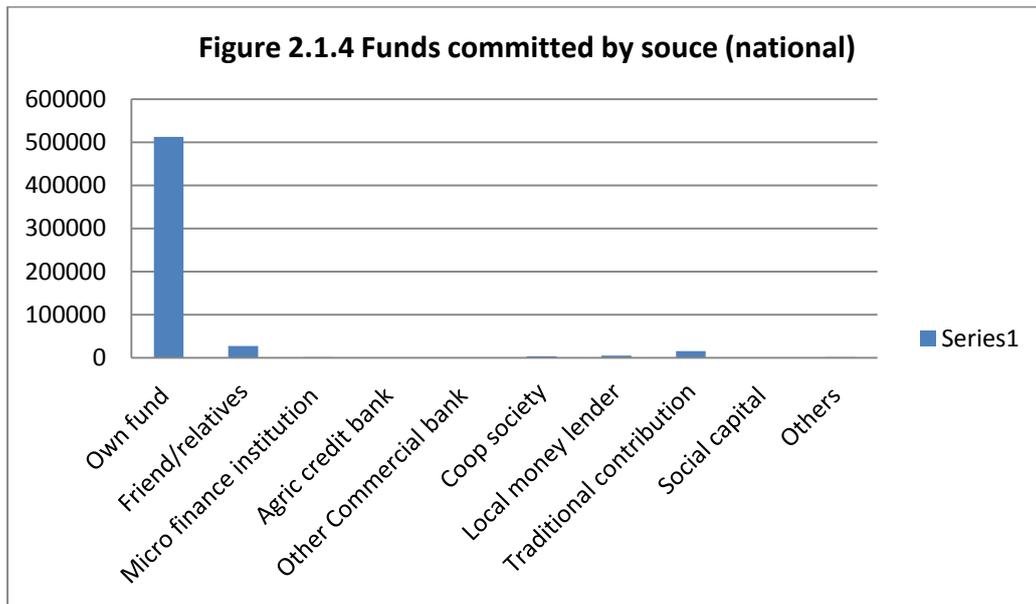

2.1.4 Distribution of funds committed by source and by state (million naira), 2010

Table 2.1.4 depicts that the total amount committed to crop farming was 570,063 million naira out of which own fund took the lion share of 513,577 Million naira (90.09 percent), followed were friends/relatives 27,475 million naira (4.82 percent), Traditional Contribution 15,861 million naira (2.78 percent), local money lender 5,291 million naira (0.93 percent) and Cooperative society 3,694 million naira (0.65 percent) The national average amount committed was thirty one thousand, three hundred and sixty three naira (N31,363).

Figure 4 Funds Committed by Source (National)

2.1.5 Estimated Area ('000 hectare) and Production ('000 metric tons) of crops by state

In the survey twelve major crops, fifteen minor crops and five tree crops were covered; the major crops are: beans, cassava, maize, cocoyam, cotton, soya beans, groundnut, guinea corn, millet, rice, yam and melon; the minor crops are: bambaranut, banana, sesame seed, cucumber, garden egg, okra, plantain, potato, pumpkin, sugarcane, pepper, onion, leafy vegetable, pineapple and tomato. Tree crops are: cashew, cocoa, kolanut, orange and palm oil. The area cultivated is recorded in thousand hectares ('000 ha) and production in thousand metric tons ('000 metric tons). See Table 8, Table 9, and Table 10 in the appendix.

Beans:

Twenty eight states reported cultivating beans with a total area of 2,859.77 ('000 ha) out of which Zamfara state led with 406.32 ('000 ha), followed by Borno state 260.90 ('000 ha) and Yobe state 255.09 ('000 ha) while Ogun state had the least area cultivated 0.12 ('000 ha) The total beans production is 3,368.24 ('000 metric tons out of which Borno state recorded the highest with 428.48 ('000 metric tons) followed by Zamfara state 408.45 ('000 metric tons) and Niger state 340.78 ('000 metric tons). Also Ogun state recorded the least production of Ogun 0.14 ('000 metric tons).

Cassava:

A total of thirty-three states cultivated cassava with 3,481.88 ('000 ha) as area of land cultivated, these states recorded the highest figure Benue 403.15 ('000 ha) followed by Cross River 345.80 ('000 ha) and Enugu 242.74 ('000 ha) while Kano state had the lowest area cultivated at 1.12 ('000 ha).

The aggregate production was 42,533.17 ('000 metric tons). Benue state had the highest production figure 3,791.45 ('000 metric tons), followed were Cross river 3,302,47 ('000 metric tons) and Oyo 2,920.01 ('000 metric tons). Sokoto state recorded the least figure in production with 3.7 ('000 metric tons)

Maize:

All states, including FCT, cultivated maize with total national cultivated area being 4,149.33 ('000 ha). Kaduna state had the highest with 435.72 ('000 ha), followed by Borno state 396.65 ('000 ha) and Niger 334.91. The state that had the smallest land area cultivated was Jigawa with 9.79 ('000 ha).

The national production figure of maize for 2010 was 7,676.85 ('000 metric tons). Disaggregating into states Kaduna state had the highest production 1006.06 ('000 metric tons) followed by Borno state 740.24 ('000 metric tons) and Niger state 628.85 ('000 metric tons). The state with the lowest maize production was Jigawa with 11.09 ('000 metric tons).

Cocoyam:

A total of twenty two states reported cultivating cocoyam, the total area cultivated is 520.12 ('000 ha) out of which Ondo state had the biggest share of 80.13 ('000 ha) followed by Ebonyi state 44.75 ('000 ha) and Akwa Ibom state 43.89 ('000 ha). The state with the least area of land cultivated was Kano state; 0.43 ('000 ha).

The total production of cocoyam was 2,957.09 ('000 metric tons), the states production shows that Ondo had the biggest production of 605.71 ('000 metric tons) followed by Ebonyi 247.80 ('000 metric tons) and Enugu 228.98 ('000 metric tons). The state with lowest production was Kano with 0.94 ('000 metric tons).

Cotton:

Eighteen states were involved in the production of cotton with a total area cultivated of 398.56 ('000 ha), Zamfara state led with 96.98 ('000

ha) area cultivated followed by Katsina state 69.02 ('000 ha) and Adamawa state 50.80 ('000 ha). The state that had the smallest land area cultivated was Ekiti with 0.07 ('000 ha).

The national production of cotton was 602.44 ('000 metric tons, in states disaggregation, Zamfara led in production with 155.19 ('000 metric tons) followed by Katsina 128.92 ('000 metric tons) and Adamawa 92.64 ('000 metric tons) while Ekiti state had the least production of 0.06 ('000 metric tons).

Soyabeans:

12 states were involved in cultivating soyabeans with the total area cultivated being 291.38 ('000 ha), Benue state recorded the highest figure 78.62 ('000 ha), Niger state 72.49 ('000 ha) and Kaduna state 58.65 ('000 ha). Nassarawa state recorded the least area cultivated of 1.42 ('000 ha).

The aggregate production was 365.06 ('000 metric tons). The states breakdown shows that Benue led with 119.24 ('000 metric tons), followed were Niger 80.03 ('000 metric tons) and Kaduna 75.97 ('000 metric tons). The state with the least production was Nassarawa 1.62 ('000 metric tons).

Groundnut:

Twenty eight states cultivated groundnut with a total area cultivated being 2,785.17 ('000 ha). These states had the largest area of land Kano 453.10('000 ha), Niger 261.50 ('000 ha) and Kaduna 235.65 ('000 ha) while Bayelsa state recorded the least cultivated of 0.07 ('000 ha). The national production was 3,799.15 ('000 metric tons), the states with the highest production were Niger 546.62 ('000 metric tons), Kano 526.94 ('000 metric tons) and Borno 357.79 ('000 metric tons). While the state that recorded the least production was Bayelsa with 0.06 ('000 metric ton)

Guinea corn:

A total of twenty-five states reported cultivation of guinea corn with total area of 4,960.13 ('000 ha) of which Kano state led with 583.00 ('000 ha) next were Niger state 566.38 ('000 ha) and Katsina state 499.40 ('000 ha). The state that had the least area cultivated was Enugu with 0.09 ('000 ha).

The aggregate production was 7,140.96 ('000 metric tons) out of which Kano state had the highest production figure of 745.72 ('000

metric tons) followed by Borno state 720.40 ('000 metric tons) and Zamfara 702.13 ('000 metric tons). The state with lowest production was Enugu with 0.09 ('000 metric tons).

Millet:

20 states cultivated millet with the aggregate area of 4,364.16 ('000 ha). The following states reported the largest area cultivated - Borno 492.07 ('000 ha), Kaduna 465.73 ('000 ha) and Yobe 416.06 ('000 ha). While Adamawa had the least area cultivated of 4.17 ('000 ha) The aggregate production of millet was 5,170.45 ('000 metric tons). States with high production were; Sokoto reported 714.38 ('000 metric tons, Jigawa 535.33 ('000 metric tons) and Kaduna 485.38 ('000 metric tons). The state with the lowest production was Adamawa with 7.12 ('000 metric tons).

Rice:

A total of thirty two states reported cultivation of rice with area cultivated of 2,432.64 ('000 ha), the state disaggregate shows that Taraba had the largest area cultivated 375.67 ('000 ha) followed were Kaduna 344.89 ('000 ha) and Niger 330.67 ('000 ha). The state that reported the least area cultivated was Bayelsa 1.07 ('000 ha). The national production of rice was 4,472.51 ('000 metric tons). Kaduna state led with 732.42 ('000 metric tons), following were Niger state with 636.67 ('000 metric) and Kano 422.05 ('000 metric tons). The state with the lowest production was Oyo with 0.29 ('000 metric tons).

Yam:

27 states planted yam and the sum of the area planted was 3,236.16 ('000 ha), of which Benue state led with 396.45 ('000 ha) followed by Niger state 367.16 ('000 ha) and Taraba 272.52 ('000 ha). The state with the least area cultivated was Lagos with 2.06 ('000 ha). The total yam output was 37,328.17 ('000 metric tons), the state output showed that Benue state had 3,914.17 ('000 metric tons), followed by Niger state 3,166.12 ('000 metric tons) and Taraba 2,854.95 ('000 metric tons). The state with lowest output was Lagos 17.24 ('000 metric ton).

Melon:

22 states reported cultivating melon with a total area cultivated being 469.70 ('000 ha). Niger state recorded the largest area cultivated 142.45 ('000 ha) followed by Imo state 62.44 ('000 ha) and Edo state 48.08 ('000 ha). The state that recorded the least area cultivated was Benue with 0.42 ('000 ha).

The national production of melon is 507.34 ('000 metric tons), disaggregating by states, Niger had 177.99 ('000 metric tons), Imo 58.40 ('000 metric tons) and Edo 47.03 ('000 metric tons). The state with the least production figure was Benue with 0.40 ('000 metric tons).

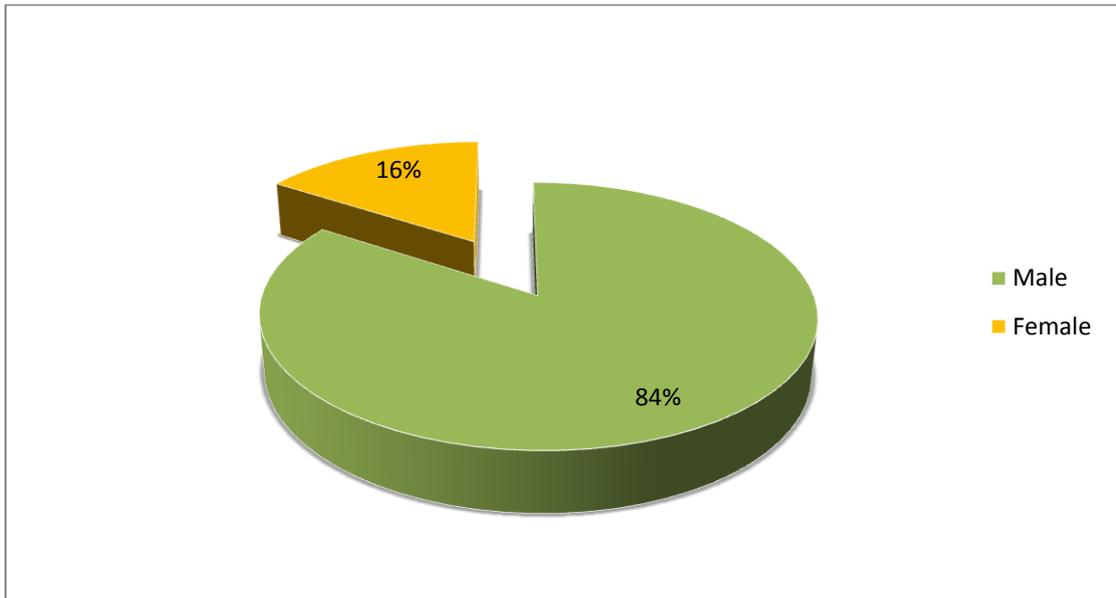

2.2 Private Farmers - Livestock

2.2.1 Distribution of Livestock holders by State and Gender

An estimated 12,309,631 peasant livestock holders were recorded in Nigeria during 2010/2011 survey year. Of this figure, 10,367,831(84.2 per cent) were male while the remaining 1,941,801(15.8 per cent) were female. This reveals male dominance of this agricultural activity at peasant level. See Table 28 for more details.

On state basis, Osun state recorded the highest number of livestock holders with 700,851(5.69 per cent), this was attributed to high number of female livestock holders in the state. This was followed by Katsina and Jigawa with 637,175(5.18 per cent) and 636,672(5.17per cent) respectively. Lagos State had the least holders of 13,264(0.11 per cent) in the country. Osun State also recorded the highest number of female livestock holders with 238,162 holders representing 12.3 per cent of the total female livestock holders in the country. This was followed by Ondo and Kogi States with 191,111(9.8 per cent) and 155,059(8 per cent) respectively. Bauchi State did not record any female livestock holder.

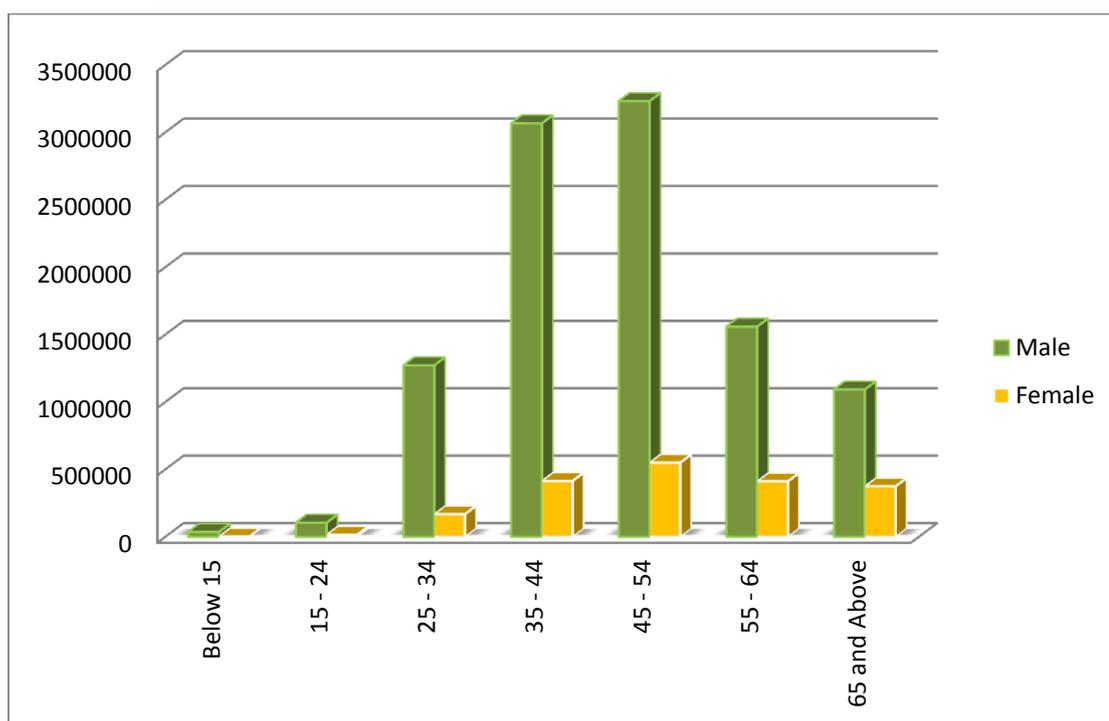

Figure 5 Distribution of Livestock Farmers by Sex

2.2.2 Distribution of Livestock holders by State and Age Group

For age group distribution of livestock farmers from table 2.2.2 it was revealed that out of 12,309,508 holders, age group '45–54' accounted for the highest figure of 3,783,578(30.7 per cent), this was closely followed by age groups '35 – 44' with 3,483,090(28.3 per cent). Age groups '55 – 64' and '65 and above' recorded 1,971,881(16 per cent) and 1,468,413(11.9 per cent) respectively. Age group '0 – 15' expectedly recorded the least number of holders 40,039(0.3 per cent). The average age of holders revealed as 49 years. See Figure 5 below.

Figure 6 Distribution of Livestock Farmers by Age and Sex

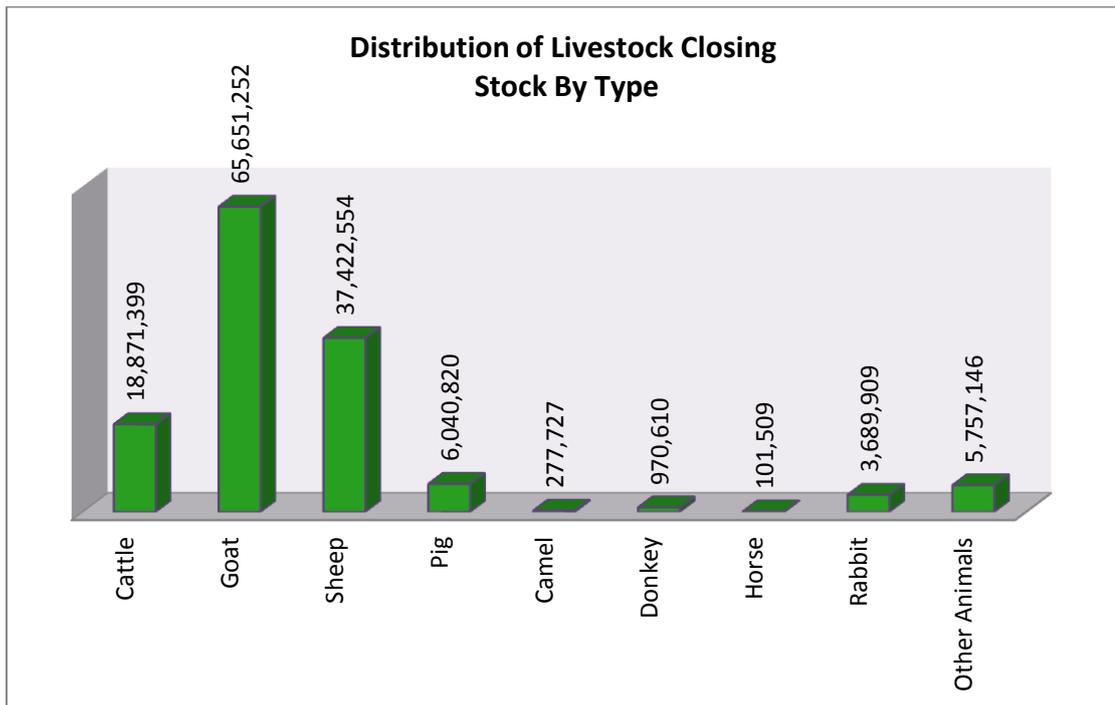

2.2.3 Distribution of Livestock Changes in Stock by type of Livestock reared

A national figure of 138,782,927 livestock of different types and species were recorded as closing stock during the survey year. Tables 2.2.3 showed that goats recorded the highest number of 65,651,252 (47.3 per cent), followed by sheep and cattle with 37,422,554 (27.0 per cent) and 18,871,399 (13 per cent) respectively. Horses were recorded as the least reared with 101,509 (0.1 per cent).

TYPE OF LIVESTOCK	INITIAL POPULATION	NO BORN	NO BOUGHT	NO SLAUGHTERED	NO DEAD	NO SOLD	AVERAGE UNIT PRICE	CLOSING STOCK
Cattle	13,435,647	9,643,860	2,414,278	982,483	1,126,421	4,513,480	81,138	18,871,399
Goat	123,896,412	50,411,066	8,375,968	7,339,605	8,793,523	100,899,065	8,538	65,651,252

Other Animals	4,513,033	4,038,722	258,433	292,295	451,508	2,309,239	3,253	5,757,146

Figure 7 Distribution of Livestock Closing Stock by Type

Distribution of Cattle by State

An estimated total national figure of 18,871,399 cattle of different species was recorded as closing stock in the country by 28 states of the Federation. Out of this, Zamfara state recorded 3,174,900(16.8 per cent). This was followed by Jigawa and Katsina states with 2,196,537 (11.61 per cent) and 2,008,592 (10.6 per cent) respectively. The survey revealed that North West zone of the country produced over half of the entire cattle in the country during the survey year with 9,892,240 (52.4 per cent).The average unit price of cattle was recorded as ₦1, 138.00 per head. See Table 36 in the appendix

Distribution of Goat by State

A total number of 65,651,252 goats of different species were recorded as closing stock in the country in all the States of the federation except in Bayelsa state where no information was supplied. Out of this figure, Katsina State recoded the highest figure among the list of high producer of goat in the country with 5,049,049(7.7 per cent). This was followed by Jigawa State with 4,916,205 (7.5 per cent). Zamfara and Benue States recorded 4,478,818 (6.8 per cent) and 3,642,813 (5.5 per cent) respectively. While

Lagos recorded the least with 10,140 (0.02 per cent). The average unit price was given as N8, 538.00 per head. See Table 37 in the appendix

Distribution of Sheep by State

All States of the Federation except Bayelsa and Lagos States recorded a closing stock of 37,422,554 sheep during the survey year. Out of this, Zamfara state recorded the most with 5,856,546 (15.6 per cent), followed by Katsina and Jigawa States with 4,390,161 (11.73 per cent) and 4,366,825 (11.67 per cent) respectively. Rivers state recorded the least with 25,966. The seven states of North West Zone of the country accounted for 58.8 per cent of the entire closing stock of sheep in the country during the survey year. The survey also revealed an average price per head of sheep as N13, 164.00. See Table 38 in the appendix

Distribution of Pig by State

A total of 6,040,820 pigs were recorded as closing stock during the survey year. Out of this, Plateau State recorded 1,260,851 (20.87 per cent), followed by Benue State with 808,024 (13.38 per cent) while Ondo State recorded 698,234 (11.56 per cent). Lagos State had the least closing stock of 11,088 (0.18 per cent) with the average price per head given as N14, 485.00. See Table 39 in the appendix

Distribution of Rabbit by State

Sixteen states reportedly reared a total of 3,689,909 rabbits during the survey year. Of the sixteen states, Delta state reported the highest number of 2,933,945 (79.5 per cent), followed by Niger and Akwa-Ibom states with 214,410 (5.8 per cent) and 78,507 (2.1 per cent) respectively. The average price was given as N1, 354.00. See in Table 43 the appendix

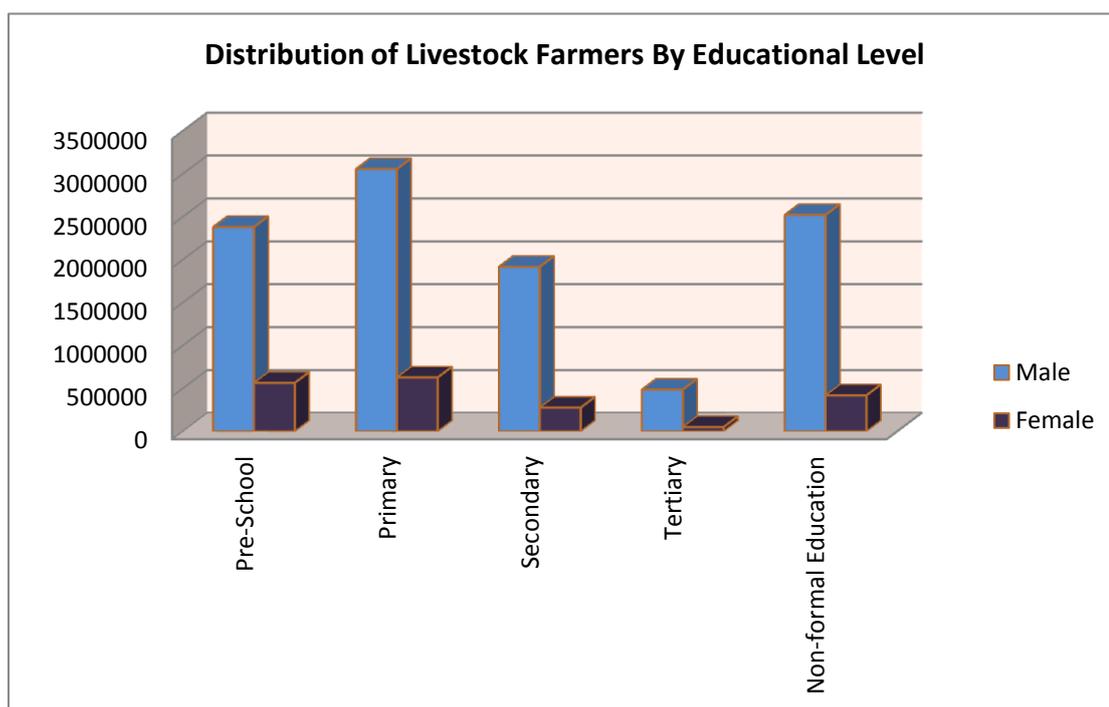

2.2.4 Distribution of holders by state and level of education

Out of the total of 12,309,508 holders, those with primary education constituted the highest number with 3,686,865 (29.95 per cent) followed by those who had pre-school education with 2,947,317 (23.94 per cent) closely followed by those with non-formal education who were 2,943,656 (23.91 per cent). Those with secondary education were

2,195,035 (17.83 percent) while those with tertiary education were made of only 536,758 (4.36 percent) of the entire holders.

STATE	Pre-School		Primary		Secondary		Tertiary		Non-formal Education	
	Male	Female	Male	Female	Male	Female	Male	Female	Male	Female
Abia	5,855	5,019	31,849	14,219	11,035	3,088	7,528	1,255	901	4,761

2.3 Private Farmers – Poultry Farming

2.3.1 Distribution of Holders by Poultry Type

Table 2.3.1 shows that a total of seven types of birds namely chicken, guinea fowl, duck, turkey, pigeon, geese and ostrich were covered in this survey 2010-11.

Nationwide, a total of 6,393,094 holders kept poultry. Of which Chicken accounted for 4,823,810 holders (95.26 percent), followed by holders of guinea fowl - 821,351 (16.22percent); duck – 536,722 (10.6 percent), while ostrich contributed least figure to the total number of peasant poultry holders with 3,205.

2.3.2 Distribution of Poultry Holders by Gender

Out of 6,393,094 holders that reported to have kept at least a type of poultry, male holders were 4,196,945 (82.9 per cent) while female holders accounted for 866,126 (17.1 percent). See *Figure 9* below.

Figure 9 Percentage Distributions of Poultry Holders by Gender

2.3.3 Distribution of Poultry Holders by Age Group

In table 2.3.3, age group 45-54 accounted for 1,502,805 representing 29.68 percent, followed closely by age group 35-44 with 1,410,091 (27.85 percent).

The distribution of age group 45-54 across states, Kogi state topped the list with 183,187 holders (12.19 percent), next was Oyo state with 131,914 (8.78 percent) and Edo state had 105,814 representing 7.04 percent.

2.3.4 Stock of Poultry by Type

A total estimate of 132.36 million birds was kept throughout the country for 2010/11 survey year. Among these birds, chicken accounted for the highest figure of 101.7million (76.82 percent), followed by guinea fowl (16.98 million) representing 12.82 percent; duck contributed 9.55 million (7.22 percent) while geese and ostrich had figures much below a million each. See appendix for details.

2.4 Private Farmers - Fishery

A total of 1,024,428 who were both (fish capture and farming) holders covered all over the federation for the 2010/2011 farming seasons. Disaggregated by gender, the figure showed a total of 896,304 (87.49 percent) male holders while the female holders were 128,125 (12.51 percent). See *Table 74* appendix for details.

Figure 10 Distribution of Fish Farmers by Gender - National

The spread of farmers educational background, Primary had 327,673 (31.99 percent), followed by preschool with 243,073 (23.73 percent), while Tertiary had the least with 56,516 (5.52 percent). See *Table 75* in appendix for details.

Figure 11 Distribution of Fish Farmers by Highest Level of Education and by State

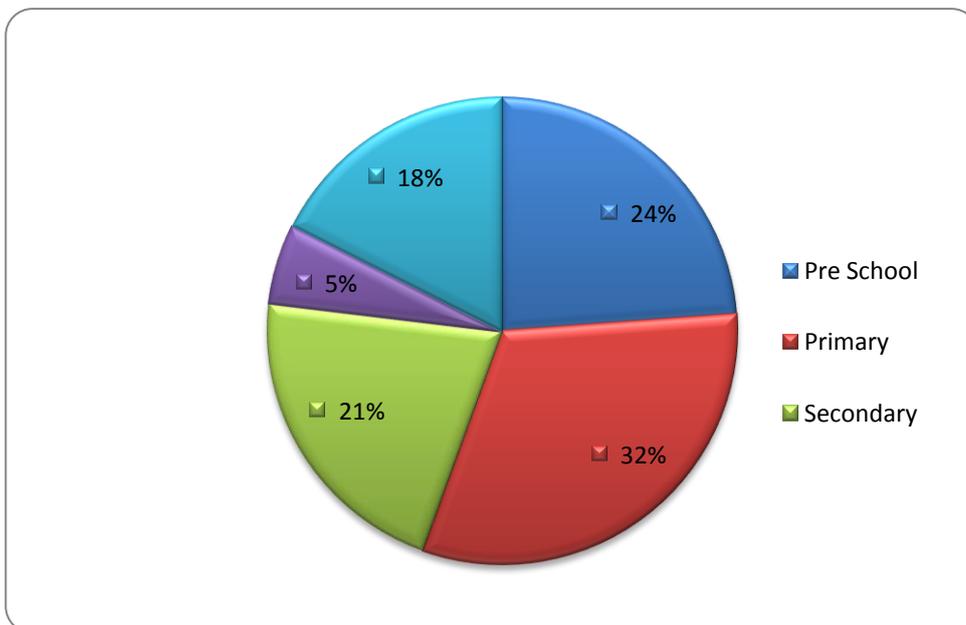

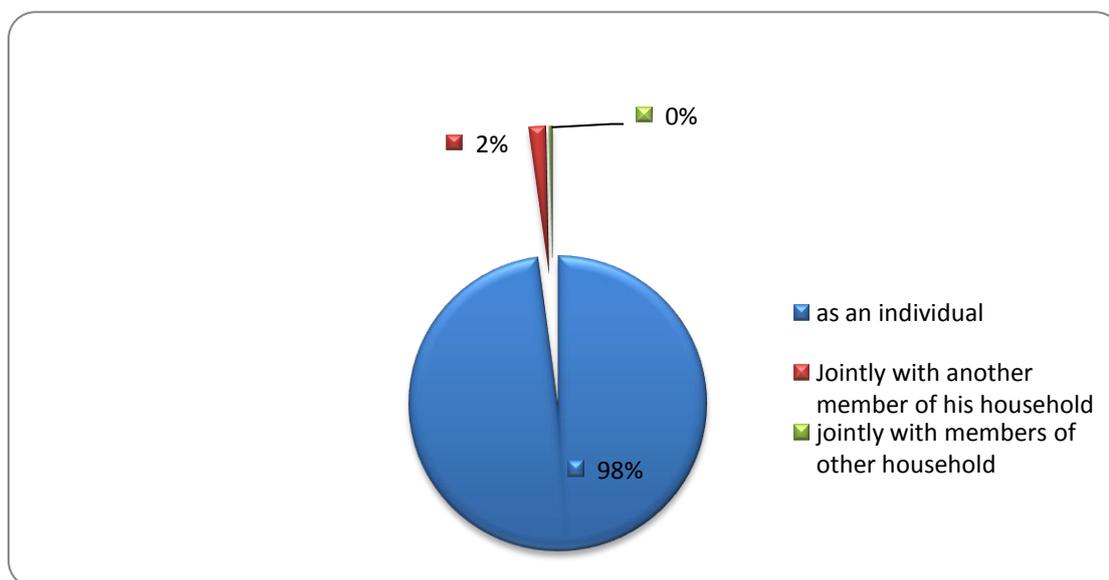

Figure 12 below shows the three types of ownership, individual, jointly with another member of his household, and jointly with members of other household.

Figure 12 Percentage Distribution of Fish Farms by Form of Ownership

2.4.1 Distribution of Fish Farmers by Water Body

Inland Rivers was the most commonly used with 377,141 (32.48 percent) holders, followed by Lake/Dam/Reservoir with 350,295 (30.17 percent) holders, while the least was other types with 22,088 (1.90 percent). See Table 76 appendix for details.

2.4.2 Distribution of Aquatic Fish Production by Type

The most common aquatic fish productions are tilapia and catfish. The highest production of tilapia occurred in the 3rd quarter with a figure of 198.57 million kg, disaggregated by states Sokoto state had 33.90 million kg followed by Akwa-Ibom state 30.99 million kg and Borno state 28.07 million kg. Also, the cat fish had its highest production in the 3rd quarter with a figure of 147.29 million kg, on state basis Akwa-Ibom state had the highest figure of 38.23 million kg followed by Sokoto state 28.21 million kg and Borno state 26.81 million kg.

2.5 Corporate Farms - Crop

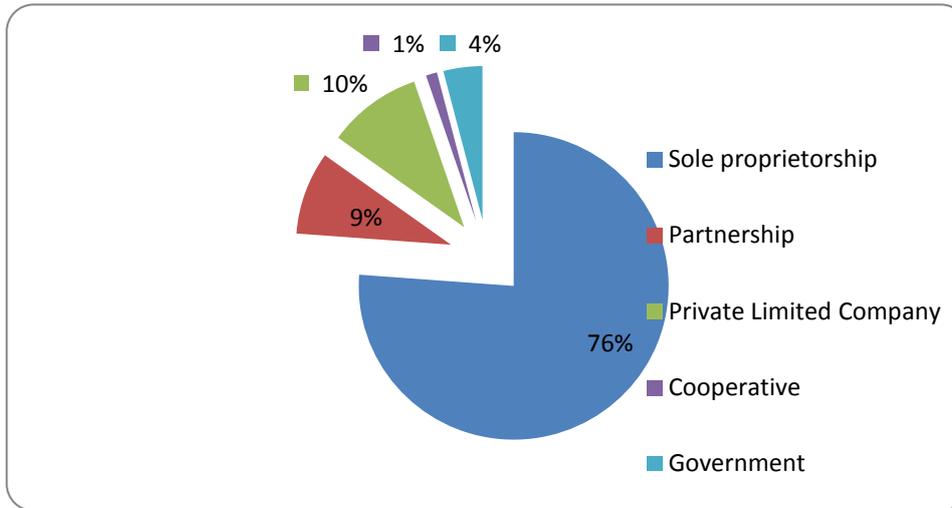

2.5.1 Distribution of Legal Ownership of Crop Corporate Farms

In table 2.5.1, crop corporate farms were 171 covered nationwide. Majority of them were classified to be owned by individuals (i.e. sole proprietorship) which was 76.36 percent, followed by Private Limited Company (8.94 percent). The lowest form of ownership is found in the Cooperative ownership.

Figure 14 Percentage Distribution of Legal Ownership in Crop Corporate Farm

2.5.2 Source of Funds

Nationally, a total amount of N184.32 million was invested into Crop corporate farms for 2010/11 survey year. Of which “Own fund” accounted for N179.91million (97.61 percent) and “Microfinance Bank” and “Deposit Banks” were 0.78% and 0.96% respectively. See *Table 81* appendix.

2.5.3 Area and Production

In Nigeria, crops like: beans, cassava, maize, rice, millet, guinea corn, cashew, plantain, beniseed (sesame), soya beans, mango, pineapple, and oil palm were covered during the survey year. A total area planted for crops was 22,481.28Hectares (HA) with production of 71,684.07 metric tons (MT).

The area planted and production of some crops was estimated as follows:

BEANS: Beans accounted for area planted of 3,189.73HA with production estimate of 8,060.61MT.

CASSAVA: This crop covered an area of 2,121.28HA with production estimate of 9,993.99MT.

MAIZE: An estimated area planted of Maize was 4,183.24HA with production of 16,854.07MT.

MILLET: A total area planted of 2,912.39HA with production estimate of 9,678.53MT.

RICE: The crop was planted on land size area of 1,577.68HA which had a production estimate of 5,438.45MT.

OIL PALM: Its area planted was estimated to be 68.85HA with production of 1,476.82MT.

2.6 Corporate Farms - Livestock

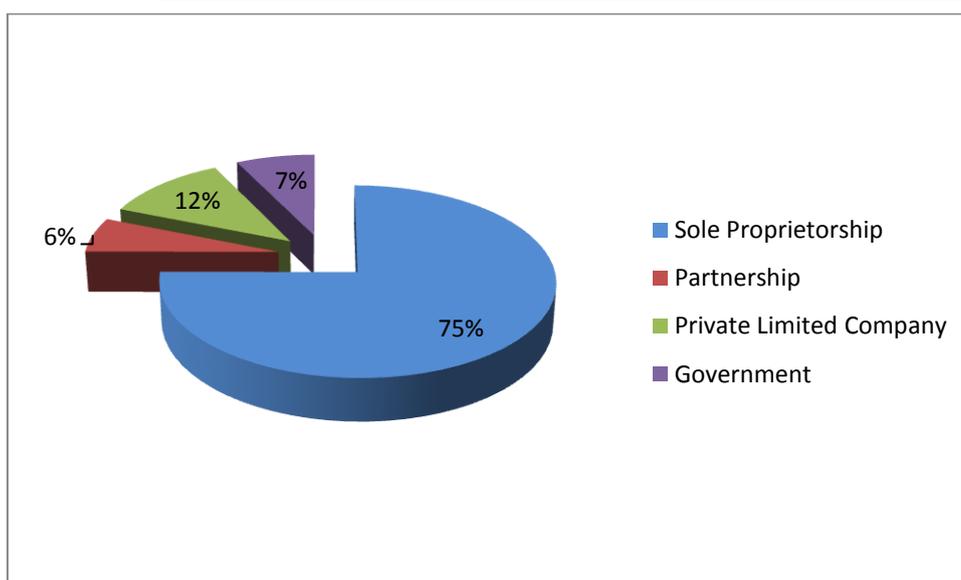

2.6.1 Distribution of corporate livestock farm by State and form of Ownership

Out of the total corporate livestock farms covered sole proprietorship form of ownership constituted 75 per cent of the entire corporate farms studied and so was the most common. Private limited company was next with 12 per cent, Government owned accounted for 7 per cent, while Partnership form of ownership accounted for 6 per cent. It was also revealed that no Public limited company was involved in livestock farming during the survey year.

Legal form of ownership	No of Farms	Percent	Cum. Percent
Sole Proprietorship	35	75.1	75.1
Partnership	3	6.0	81.1
Private Limited Company	5	11.6	92.7
Government	3	7.3	100
Total	47	100	

Figure 15 Distribution of Corporate Livestock Farms by Form of Ownership

2.6.2 Distribution of Corporate Livestock farm by State and fund committed by Source

Of the total corporate livestock farms 99 per cent reportedly had the source of their fund from 'own funds', while the remaining 1 per cent came from other sources.

SOURCE	Amount (=N=)	Percent
Own Funds	299,902,200	99
Friends/Relatives	.	
Microfinance Bank	.	
Nigeria Agric. Co-op. Rural Development Bank	.	
Deposits Money Bank	.	
Cooperative Society	.	
Local Money Lender	.	
Micro Credit Institutions	.	
Credit in kind (specify)	.	
Other Sources (specify)	3,400,000	1
Total	303,302,200	100

2.6.3 Distribution of Persons engaged in Corporate Livestock farming by State

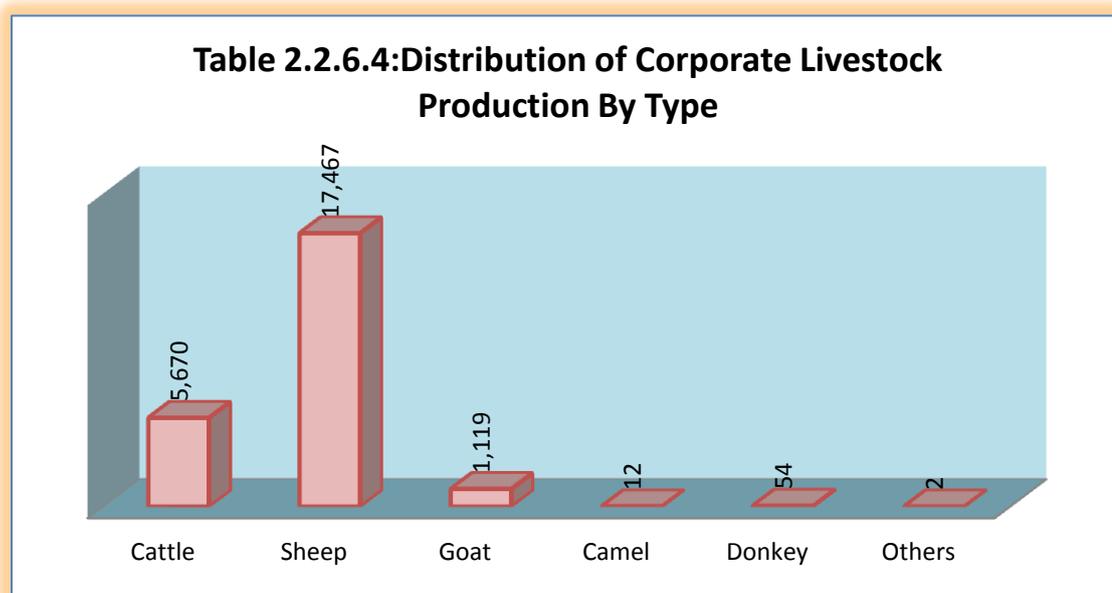

All forty-seven corporate livestock farms studied during the survey year were from the northern part of the country and engaged a total of 1,002 persons out of which 50 of them, representing 5 per cent were working proprietors with an average income of N438,384.00. Out of the thirteen States reported, Sokoto and Katsina states reportedly engaged the highest number of persons with average income of N101,893.00 and N96,510.00 respectively. See *Table 86* appendix.

2.6.4 Distribution of Corporate Livestock Production by State and Type

A total of 24,323 livestock of different types were produced by corporate farm during 2010/2011 survey year. Of the figure, sheep accounted for the highest number of 17,467(72 per cent), followed by cattle with 5,670 (23.31 per cent) while goats recorded 1,119 (4.6 per cent). Donkeys and camels recorded 54(0.22 per cent) and 12(0.05 per cent) respectively while pigs and rabbits were reportedly not reared by corporate livestock farms during the survey year under consideration.

Table 2.6.4: SUMMARY DISTRIBUTION OF LIVESTOCK REARED IN THE COUNTRY BY CHANGES IN STOCK

Figure 16 Distribution of Corporate Livestock Production by Type

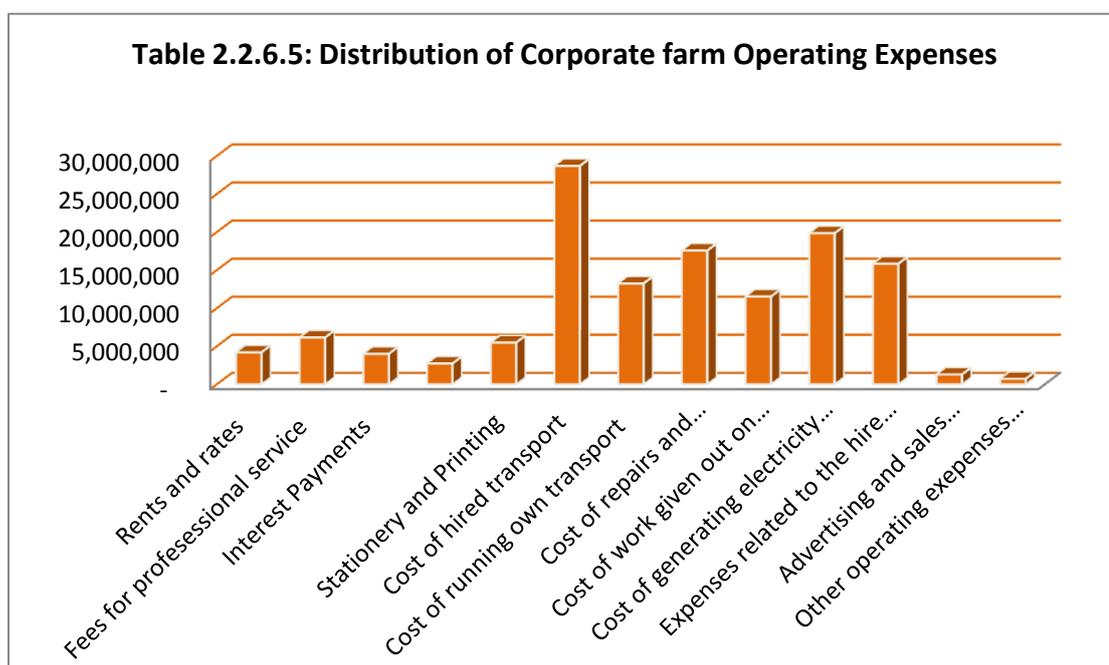

2.6.5 Corporate Farms Operating Expenses

A total amount of N131, 257,980.00 was expended on corporate livestock farming activities during the survey year. Out of this amount, cost of hired transport accounted for N28, 689,500.00(22 per cent), followed by the cost of generating electricity with own equipment N19, 849,000.00(15 per cent) while cost of repairs and maintenance was next with N17, 564,960.00(13 per cent). Communication & related expenses and Advertising & sales promotion incurred the least expenses of N 2,724,780.00(2 per cent) and N 1,292,000.00(1 per cent) respectively.

Operating Exepenses	Amount (=N=)	Percent
Rents and rates paid	4,193,000	3
Fees for professional service (legal, audit accounting)	6,145,000	5
Interest Payments (for instance, on loans)	4,000,000	3
Communication, related exepenses (telephone, telegraph, post	2,724,780	2
Stationery and Printing	5,477,200	4
Cost of hired transport	28,689,500	22
Cost of running own transport (fuel, maintenance, licensing	13,242,540	10
Cost of repairs and maintenance	17,564,960	13
Cost of work given out on sub-contract	11,520,000	9
Cost of generating electricity with own equipment	19,849,000	15
Expenses related to the hire of equipment and machinery	15,840,000	12
Advertising and sales promotion	1,292,000	1
Other operating exepenses (specify)	720,000	1
Total	131,257,980	100

Figure 17 Distribution of Corporate Farm Operating Expenses

2.7 Corporate Farms - Poultry

2.7.1 Poultry Count in Corporate Poultry Farming and Unit Price

The table shows that 6,863,176 chickens were kept. Ogun State had the highest number of chickens kept at 2,149,410 followed by Plateau state 1,135,320 while Benue State had the least figure 2,800. The national average price of chicken was 913 Naira. See *Table 94* appendix for details.

2.7.2 Sale of Eggs by state in corporate poultry farming

Table 2.7.5 reveals that the total crate of eggs produced was 6,631,740 out of which Ogun state had the highest production of 1,821,793 followed by Lagos state with 1,436,022 while Taraba had the least 7 crates. The national average price was 611 Naira.

2.8 Corporate Farms – Fishery

2.8.1 Distribution of Fish Farmers by Form of Ownership and By State

41 farmers nationally are corporate fish farmers. Categorizing these population of farmers revealed that sole proprietor recorded the highest with 22 (4.55 percent) followed by private limited company with 10 farmers (23.30 percent) and Cooperative with 4 farmers (9.45 percent) while Government recorded 2 farmers (4.88 percent). Partnership,

public limited liability company and other forms of ownership recorded 1(2.44 percent) each.

Figure 18 Distribution of Fish Companies by legal Form of Ownership

On state basis among the 18 states that responded, Lagos recorded the highest with 8 farmers (20.39 percent) followed by Kogi state 4 farmers (8.79 percent), Adamawa and Anambra States 3 farmers (7.33 percent) each. Enugu, Kwara, Ogun, Oyo and Taraba States recorded 2 farmers (5.86 percent) while the least states were Bayelsa, Benue, Ebonyi, Edo, Ekiti, Gombe, Jigawa, Nasarawa, Ondo, Plateau, Rivers and FCT recorded 1 farmer (2.44 percent) each. See *Table 100* appendix for more details

2.8.2 Distribution of Persons Engaged in Corporate Fish Farming.

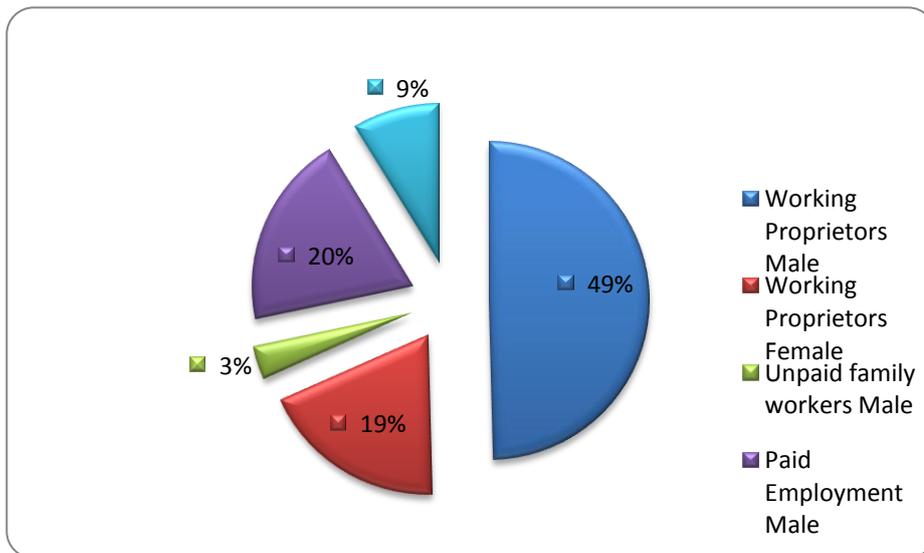

Table 2.8.2 showed that a total of 141 persons were engaged in corporate fish farming in this agriculture season. Working Proprietors recording the highest with male 70 persons (49.59 percent) and female 26 persons (18.74 percent) totalling 96 persons nationally.

Categorizing these proprietors on state basis among the 18 states that responded, Lagos state was the highest with 18 males and 3 females (25.96 percent and 12.49 percent) respectively. The least states were Benue, Edo, and Rivers recorded 1 male (1.41 percent) respectively.

The unpaid family members recorded 5 males (3.36 percent) only, while paid employees were 28 males (19.61 percent) and 12 (8.70 percent) females.

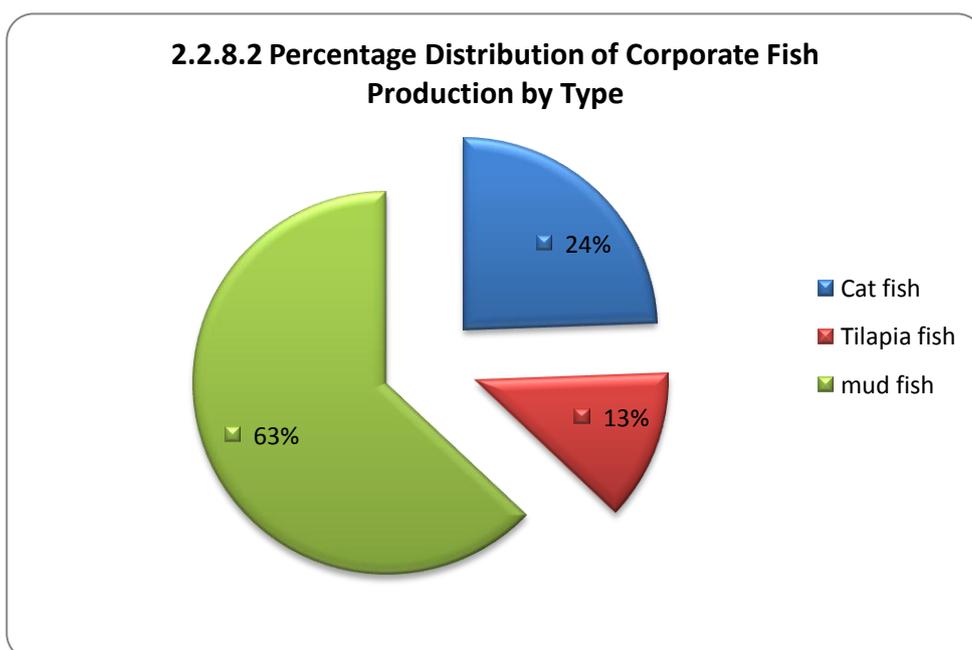

Figure 19 Percentage Distribution of Persons Engaged in Corporate Fish Farming

2.8.3 Distribution of Corporate Fish Production by Type

Table 101 showed that corporate farmers concentrated on only three types of fish and these are Tilapia, Cat and Mud fish. Mud fish recorded the highest with 321,041.05 kg (62.94 percent) followed by Cat fish with 124,603.71 kg (24.43 percent), and Tilapia the least with 64,447.64 kg (12.63 percent).

Figure 20 Percentage Distribution of Corporate Fish Production by Type

The sales from corporate fish production showed that Mud fish led with ₦ 115,114,194 (47.57 percent), followed by Cat fish with N 87,633,758 (36.21 percent) while Tilapia recorded the least with 39,257,909 (16.22 percent).
