INTERVIEWER READ OUT Thank you for taking the time to talk to me today. I am working for the National Bureau of Statistics and am here for the General Household Survey. This survey is being conducted throughout the nation to get a better understanding of the wellbeing and livelihoods of households like yours in Nigeria. With this information, the government and other organizations can enact programs to help households in need throughout the country. Your household has been randomly selected for the study. The answers that you give us will be completely confidential and will not be linked to you and your household. Therefore, nobody – in this community, in the government, or any other organization – will know what you tell us. Before we begin, we would like to ask for your explicit oral informed consent. Please note that you are under no obligation to answer any or all of our questions, although it would help us very much if you did. If you do not understand anything, or would like to ask a question, please feel free to do so at any point. If you agree to this interview, you can still choose not to answer any question during the interview, or to terminate the interview at any time. You can also call [NUMBER] if you would like further information or have questions. The interview will take approximately 2 to 4 hours. Do you have anything you want to ask me, or can we start?
